SHUBHAM RAJENDRA PADULE

Frontend Developer | React.js | Next.js | Socket.IO | Healthcare SaaS

Pune, India | +91 8483883856 | shubhampadule22@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with 1.5+ years of experience specializing in React.js, Next.js, and real-time Socket.IO integration within Healthcare SaaS products. Delivered 20+ end-to-end modules including a live Screening Dashboard, Document Management System (DMS), and Home Healthcare (HHC) platform with VoIP integration. Proven ability to optimize UI performance, architect reusable component libraries, and build responsive Single Page Applications (SPA). Passionate about clean code, scalable UI architecture, and data-driven user experiences.

WORK EXPERIENCE

Frontend Developer — Dec 2024 – Present

Spero Healthcare Innovation Pvt. Ltd. • Pune, India

- Built a real-time Screening Dashboard using Socket.IO, reducing manual status-check time by ~40% through live patient data updates.
- Developed a Document Management System (DMS) with full CRUD operations, dynamic filters, and role-based access — managing 500+ records efficiently.
- Integrated Grandstream VoIP call functionality into the HHC module, enabling in-app voice communication and eliminating dependency on external tools.
- Architected the end-to-end Home Healthcare (HHC) module from scratch — UI design, REST API integration, and a reusable component library of 15+ components.
- Performed frontend code optimization and refactoring across 5+ modules, improving page load speed by ~35% via lazy loading and code splitting.

React Developer Intern — Jul 2024 – Nov 2024

Avvid Soft • Pune, India

- Built a multi-step form wizard with 6+ dynamic steps, conditional rendering logic, and real-time validation — reducing user input errors by ~30%.
- Developed 10+ reusable UI components using Material UI, ensuring pixel-perfect design consistency across the application.
- Integrated 8+ REST APIs for seamless frontend-backend data flow, collaborating closely with backend developers to finalize data contracts.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, Next.js, Material UI, Tailwind CSS, Bootstrap, Framer Motion, Shadcn UI

Real-time & Integration: Socket.IO, Grandstream VoIP, REST APIs, Axios, TypeScript

Databases: MongoDB, PostgreSQL

Tools & Platforms: VS Code, Postman, Git, GitHub, Vercel, Vite, npm

Concepts: SPA, Component Architecture, Responsive Design, Performance Optimization, CRUD, Code Splitting, Lazy Loading, Redux, Context API

Languages Known: English (Professional) | Hindi (Native) | Marathi (Native)

PROJECTS

Home Healthcare (HHC) Platform — Spero Healthcare Innovation

React.js • Socket.IO • Grandstream VoIP • REST APIs • Material UI

- Designed and built a multi-module healthcare platform — Screening Dashboard, DMS, and HHC — serving end-to-end patient management workflows.
- Real-time socket integration enabled live screening updates; VoIP calling reduced communication friction for healthcare staff by ~50%.
- Delivered CRUD-based document management with file preview, dynamic filtering, and status tracking for 500+ patient records.

Quantum Expense Tracker — Personal Project

GitHub

React.js • Google Gemini AI • Clerk Auth • JavaScript • CSS3

- Built a full-featured Expense Tracker with To-Do List, Gemini AI-powered expense analysis, and category-wise spending insights.
- Integrated Clerk authentication for secure, user-specific financial dashboards — supporting multi-user data isolation.
- Gemini AI auto-splits expenses by category and generates actionable summaries, reducing manual tracking effort by ~70%.

TravelSphere — Personal Project

Next.js • TypeScript • Tailwind CSS • Framer Motion • Vercel

- Built a premium full-stack travel booking platform with dynamic routing, complex booking state management, and smooth animations.
- Implemented TypeScript for type-safe development, reducing runtime errors and improving code maintainability.
- Deployed on Vercel Edge Network with Next.js SSR, achieving sub-second load times globally.

CERTIFICATIONS

MERN Stack Developer Certification — Dec 2023 – Mar 2024

Full-stack development: MongoDB, Express.js, React.js, Node.js | Hands-on project-based curriculum

EDUCATION

Master of Computer Applications (MCA) — 2021 – 2023
